BIG PROGRAM ON JULY THE FIRST

If you have any doubts about the program of sports that has been prepared by the Canadian National club for Dominion Day at Mirror, just take a look at the details given elsewhere on this page.

Particular attention has been paid to the children this year and there will be races for them all. These events start at ten sharp in the morning, so that they may all be over before the first baseball game, which is billed for 1 p.m.

The baseball tournament should provide something games, as all four teams are figuring on winning the first prize.

There will be a booth on the grounds to cater to the thirsty and hungry.

If you never attended a celebration before--be at this one. And further, have all the kids at the school grounds in the morning, every one will receive a gift or prize.

NO BOARD OF CONCILIATION IN POSTAL STRIKE

Ottawa.—There is no possibility of the Government appointing a board of conciliation to handle the postal strike. Hon. James Murdoch, minister of labor, has stated. Mr. Murdoch said that even before the postal workers went out on strike the appointment of a conciliator was being considered. The wage dispute would not have been possible, Salaries of civil servants come under the Civil Service Act, and the Government could not agree to a board of conciliation to review the wage disputes which were not have been possible. "The mail service of Canada must move."

I am going to take, so far as I can, every legitimate means to move it," he declared. Hon. Charles Stewart, acting postmaster general, told the House, when questioned on Government plans in the postal strike. Mr. Stewart reviewed the negotiations, claimed the Government would maintain the present rates for the lower paid men, with the addition of a promise to review the whole situation after the revision of rates had been concluded for the civil service as a whole.

The minister said that his personal sympathy was strongly with labor but he felt that it was the Government of Canada which must carry on business. (This statement was received with general applause in the chamber.)

He said that he had told the men's committee that while he sympathized with them he could not do more than after that he had exercised all the ingenuity he possessed to carry on the postal service. As to whether the men who had gone out would be given their job back, he said the "while the mail has been out the villain sinner may return," but that they could not be continued indefinitely.

Farm Implements

Interest Shown in Working Model Of Farm Tractor

London—Visitors are much appreciating the country of interest exhibited at the Government pavilion. This display is designed to demonstrate the value of modern implements of agriculture. Particular interest is being shown in an ingenious working model of a farm tractor carrying out a variety of operations. The model is 13' 3" in. long, one-third the size of the actual size. It provides an excellent practical illustration of the many uses to which the tractor can be put on an up-to-date farm.

HEAVY EXPORT OF WHEAT IS SHOWN FOR MAY

Ottawa.—Canadians exported 42,000,000 bushels of wheat last month, or 30,000,000 more than during May, 1923. This is considered the best possible proof of what a big crop Canada has. The exports were large, when experts had thought grain country a favorable trade balance of \$5,000,000.

How badly Canada had the United States beaten in wheat exports last month is shown in the following table:

United States' exports last month were 2,431,000 bushels. That's to say, Canadian shipments were very nearly double those of the U.S. The official figures of the United States Government show that over four times as much Canadian grain went out through the United States' ports last month as the native product. It was thought that the U.S. port of the next crop was moved.

Sir Henry Thornton Would Retain Merchant Marine

Sir Henry was distinctly not in favor of handing over the Canadian merchant marine to the most Merchant Marine, which was reaching out every day. He was indicating the possibility of reducing capitalization.
